👤 PROFILE

I am Shaik Fyroz Shahul, currently pursuing my third year of undergraduate studies at Koneru Lakshmaiah Educational Foundation. I am proficient in coding languages and full-stack web development using React. Currently, I am seeking internships that can help me further develop my skill set and provide hands-on experience.

🧠 SKILLS

- C Language
- Java
- Python
- MERN Full Stack Web Development
- Python Full Stack Web Development

Full Stack Application Development Capstone Project [🔗](#)

📁 PROJECTS

Online Social Media Platform

We have developed an application using the MERN stack that enables users to send and receive messages, pictures, files, presentations, and more. Additionally, the application supports the exchange of voice messages.

Online Voting System

We have developed an application using PYTHON, consisting of two modules: the admin module and the user module. In the admin module, administrators can view all registered voters. In the user module, individuals can create their accounts, log in using their credentials, and vote for their preferred leaders.
